

This page contains system notes for bridge systems.

Some examples:

- <http://jyutzler.github.io/Bridge-Systems/jeff-jenn.html>
- <http://jyutzler.github.io/Bridge-Systems/jeff-donna.html>
- <http://jyutzler.github.io/Bridge-Systems/jeff-rick.html>

The source files for these sets of notes are on [GitHub](#). I do accept pull requests, if you are so inclined. If you want to add a new system, just create a new file. The pipeline handles the process of converting the AsciiDoc into HTML and publishing it on github.io.
